Jim – That all works for me. I'll let you know next week if we need to have further discussions on Section 10 or if we accept you suggested edits.

Kristine:

Thank you for your response. We'll take the time you have available on Friday, February 13, to attempt to wrap up our discussion of Section 10. During that meeting we will walk through the LWG's suggested edits on EPA's most recent draft (provided to you via email on February 2), with the goal of resolving them during that call.

We understand that you are unavailable to meet with us to discuss the Executive Summary prior to February 12, which is the end of the 30 day review and discussion period under the RI process agreement. Therefore, the LWG will provide written comments on the Executive Summary and a recommended revised Executive Summary by February 12. If you would like to discuss these comments on February 13 (or another day), please let us know.

Thanks, Jim.

Jim – I'm fully booked this week. I have a 2 hour time slot for a conf call next Monday between 11 and 1, or I'm free the following Friday, Feb 13 to meet in Olympia.

Good afternoon Kristine. As I reported to you last week, the LWG has not identified any show-stoppers with the revised draft Section 10, but we do have a few suggested edits that we feel should not be controversial to EPA. Gene and I are putting the final touches on a RLSO version of Sections 10.1 and 10.2 and should have it to you shortly. Do you have time tomorrow for a 30 to 60 minute phone call so we can walk through these and see if we can come to closure? My Tuesday is wide open.

In regards to the Executive Summary, again we have received initial feedback from the LWG members and Gene and I would like to set up some time later this week to discuss this with you. It will likely take several hours (3 to 4), so if you want to meet in Olympia that would be great. I am wide open Thursday and Friday. Let me know a date and time slot that work for you.

Thanks,

Jim McKenna
